FOREWORD

This publication contains a comprehensive directory of full-time business agents and representatives, a directory of labour organizations, and statistics on the growth and distribution of union membership in Nova Scotia.

Section A lists the names, addresses, and office telephone numbers of business agents and international representatives for various unions in the province. The list also includes union officials outside Nova Scotia if they are frequently involved in assisting Nova Scotia locals. This section is meant to provide a quick and easy reference to full-time officials in union locals across the province.

The first part of Section B lists the names and addresses of executive officers for each union local in Nova Scotia. In addition it includes all those officials listed in Section A, and indicates which locals are under federal jurisdiction. The unions are listed in alphabetical order of their short titles and their congress affiliations are given in parentheses. The parenthetical note "CLC chartered" means that the union is directly chartered with the Canadian Labour Congress.

The second part of Section B provides a list of officers of the District Labour Councils, the Building Trades Councils, and the Nova Scotia Federation of Labour. It also includes the names and addresses of representatives of Central Labour Organizations in Nova Scotia.

The information in Section B is current as of July, 1986. Many locals, however, elect new executive officers each year. If a user of this directory wants to be certain that his correspondence is addressed to the current officers of a particular union local, he can verify the directory listing by contacting the appropriate full-time business agent or representative for that union as listed in Section A.

Section C contains statistical information on union membership by area, industry and congress affiliation. Unless otherwise indicated the statistics were generated from data compiled by the Nova Scotia Department of Labour.

A large portion of the information presented in this publication was obtained through direct contact with labour officials. Other sources include the Statistics Canada CALURA (Corporations and Labour Unions Return Act) returns and the financial statements that union locals file each year with the Nova Scotia Department of Labour.

Appreciation is expressed to employers and union locals for their co-operation in providing the required information. Such co-operation makes possible a more accurate and timely publication.

This report was prepared by Gordon Brien and Lorelee MacLean under the supervision of Dane Percy.

SECTION C

SELECTED LABOUR STATISTICS

SECTION C

SELECTED LABOUR STATISTICS

This section contains both current and historical statistics on union membership in Nova Scotia. The total membership reported for 1986 is 104,435 representing 79,875 provincial employees and 23,685 federal employees.

Table 1 provides, for each union listed in Section B, information on congress affiliation, total membership, number of locals, and average local membership size. In addition, the commonly used abbreviations are included. The data in this table are current as of August, 1986.

Table 2 shows union membership figures by congress affiliation for the years 1982 through 1986.

Table 3 shows the distribution of unions by membership size from 1982 through 1986.

Table 4 shows a geographical breakdown of union membership figures on a county by county basis for 1986.

Membership figures were available for a majority of the 634 locals and independent local organizations for 1986. Information from these locals was used to derive the membership statistics used in Section C. A large number of the membership figures are estimates and this limitation should be kept in mind when using statistics from this publication.

The Central Labour Congress engages in legislative lobbying at the national level, conducts training sessions for union officials, and participates in international trade union activities. Examples of central labour congresses are the CLC and the AFL-CIO.

CONFEDERATION OF CANADIAN UNIONS (CCU)

Some locals contain only the union members employed in one workplace, while other locals contain members across one or more provinces. Each local has a constitution and elected officers who negotiate and administer collective agreements for their local members. In most cases, the officers are assisted by a full-time business agent or union representative. A local is financed by dues from its members. A portion of the money received is sent to the union to which the local belongs. In return, the union provides various services, such as strike assistance and full-time representatives. Some unions call their locals "branches" or "units".

NATIONAL UNION

A union which charters locals in Canada only.

NOVA SCOTIA FEDERATION OF LABOUR

UNION

A labour organization that establishes and charters locals in the industries or trades that are specified in the union constitution. The union sets general policies for its locals, assists them in the negotiation and administration of collective agreements, and coordinates their activities. Funds are obtained from the locals through per capita dues. Generally, the union holds regular conventions during which delegates from the locals vote on policy questions and elect executive officers for the union.
